

Marshal Valan D

Aspiring Data Scientist — ML Engineer — Frontend Developer

+91 9962031220 — marshalvalan03@gmail.com — Marshal linkedin

PROFILE SUMMARY

A motivated Artificial Intelligence and Data Science fresher with hands-on knowledge in data analysis, machine learning, and visualization using Python, Pandas, Matplotlib, and Seaborn. Capable of querying and managing data using SQL and building clean static web pages using HTML and CSS. Experienced in developing AI-driven solutions and continuously strengthening problem-solving skills through Data Structures and Algorithms practice. Eager to contribute, learn, and grow in a professional environment.

EDUCATION

12th Grade — Vels Vidhyashram : **66.64%**

B.Tech (AI & DS) — St. Joseph's College of Engineering : **77%**

WORK EXPERIENCE

BIG SI BUCKS — ML Engineer (Intern)

PROJECTS

Customer Churn Prediction

Built a machine learning model in Python to predict customer churn, applying data preprocessing, feature engineering, and classification algorithms. Focused on improving model accuracy and scalability to deliver actionable insights that support data-driven business decision-making.

AI-Powered Sign Language Translator

Developed an AI-driven assistive system that recognizes hand gestures in real time using computer vision and machine learning techniques, translating them into text and speech to enable seamless communication for hearing and speech-impaired individuals.

Sight Assist: Advanced Deep Learning For Real Time Object Identification and Assistance For The Blind

Developed an AI-driven assistive system that uses deep learning and computer vision to perform real-time object identification, designed to aid visually impaired individuals. Integrated gesture recognition using machine learning techniques to translate hand gestures into text and speech, enabling seamless communication and enhanced accessibility.

CERTIFICATIONS

- Introduction to Cyber Security — Cisco (2025)
- Data Analyst Job Simulation — Deloitte (2025)
- Data Analytics and Visualization Job Simulation — Accenture (2024)
- SQL Master Class: SQL for Data Analytics — Udemy (2024)

SKILLS

Programming Languages	Python, Java, SQL
Data Analytics Tools	Power BI, Microsoft Excel
Libraries	(NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow)
Frameworks	(FastAPI, Streamlit)
Domains	Machine Learning, Data Visualization, GenAI
Web Technologies	Frontend Development

LANGUAGES

English — Fluent
